

Growing Green

A Sustainability Workshop for Professionals in Development

December 10, 2009 9:00 AM - 4:00 PM
Oxford Conference Center- Oxford, MS

Program Description: This workshop focuses on the economic and environmental benefits of retaining and working with trees and other natural features to create greater sustainability and livability in commercial and residential development projects. The challenges posed during planning and construction will be addressed along with practical ideas for preservation and mitigation. The program will conclude with an opportunity for attendees to engage in questions and discussion with a panel of our speakers. Refreshments and door prizes will be offered. Resources and materials for use after the workshop will also be provided. This event is co-hosted by the City of Oxford's Tree Board and Planning Department.

Speakers: Keynote speakers for this event include
Terran Arwood, Arborist (IAS) - Woodland Tree Service
Michael Fahy, Pres. / Engineer - Prime Development Group
Bob Mercier, Architect (ASLA) - Mercier Landscape Architect

Cost: FREE! However, seating is limited. Please sign up now to reserve your seat.
