

Recycling drop off available for everyone!

Many do not know it, but anyone can recycle in Oxford. Oxford-Lafayette Recycling is available to all of the public. A drop off site is available at the Municipal Center (City Shop) on Molly Barr Road beside the Police Station and also at the Recycling Center at the City of Oxford Landfill on County Road 321 (Pea Ridge Road). I invite all of you to recycle.

There is a bin for each recyclable: Aluminum and Steel Cans, Mixed Paper, Newspapers, Cardboard, and Plastic. Here are some tips for using your Oxford-Lafayette Recycling Center.

Aluminum and Steel Cans

All aluminum and steel cans are accepted. Most aluminum cans are viewed as soda cans; some pet food cans are also aluminum. Steel cans like food cans, shaving cream, deodorant and some pet food cans are all accepted. Please rinse all cans and put them loosely into the recycling bin (i.e. no paper or plastic bags). The recycling center has equipment that will separate the cans.

Mixed Paper

The mixed paper bin is for all types of paper other than newsprint. Examples are magazines, junk mail, paper sacks, catalogues, paper folders, envelopes, computer paper, copy paper, and non-corrugated boxes can go in this bin. Please put all paper products loosely into the bin (i.e. no plastic bags or cardboard boxes).

Newspaper

Clean, dry, non-bound newspaper only. Inserts that come in the newspaper are acceptable. Please put all newspaper loosely into the bin (i.e. no paper or plastic bags).

Cardboard

Cardboard must be broken down to save space, one unbroken box takes a lot of space away from others.

Plastic

PETE #1 and HDPE #2 plastic are accepted. PETE #1 plastic examples are soda bottles, water bottles and some food containers. HDPE #2 Plastic examples are milk jugs, detergent bottles, and other food and liquid containers. The type of plastic is usually printed on the bottom or side of the item within the recycling symbol. Please put all plastic loosely into the bin (i.e. no paper or plastic bags). Please do not put any other type of plastic into the receptacle.

Oxford-Lafayette Recycling is here for everyone, please take advantage of your facility. If you have any questions please call 232-2745. Volunteers are always needed. Large quantities are accepted at the Recycling Center. If you are unsure or think it might be gross, please do not recycle it!
Amberlyn Melton Liles, Recycling Coordinator, City of Oxford
