Re: First reading of a newly created zoning district Section 145 (MD) Medical district as well as signage cross references found in Section 192.09 Special provisions 5 of the Land Development Code

The MD or Medical District is established to create an environment conducive to medical practices and operations containing concentrated medical facilities and related uses in a “campus” setting to better accommodate the needs of the medical profession and those served by it. This district does include many unique signage requirements, however when hotels or other commercial establishments are included in the hospital campus they must follow the appropriate signage regulation found in Article 5 of the Development Ordinance.

On August 20th, 2014, the Ordinance Review Committee made up of Alderman Antonow, Planning Commissioner Whittaker, the City Engineer Bart Robinson, City Attorney Paul Watkins, along with planning staff met and recommended unanimously the changes being proposed. Two members were on vacation and unable to attend the meeting.

The Planning Commission recommended approval of the proposed amendments referenced above at their regular September 8, 2014 meeting for your consideration.

Bill Henning met several times with planning staff to review and revise the proposed zoning district. Also Andy Reynolds from A2H attended the ordinance review committee to answer questions and represent the hospital.

Please find attached the Medical District text as well as the cross reference found in Article 5 Section 192.09 of the sign ordinance subsection 5.
