INDEPENDENT AUDITOR'S REPORT

Mayor and Board of Aldermen City of Oxford, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oxford, Mississippi, as of and for the year ended September 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Oxford's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and OMB Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, <u>and Non-Profit Organizations</u>. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oxford, Mississippi, as of September 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report, dated February 16, 2006, on our consideration of the City of Oxford, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be considered in assessing the results of our audit.

The management's Discussion and Analysis and Budgetary Comparisons on pages 8 through 15 and pages 66 through 69 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consist primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion thereon.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Oxford's basic financial statements. The combining and individual non-major fund financial statements and schedules of investments, surety bonds and long-term debt are presented for the purposes of additional analysis and are not a required part of the basic financial statements. statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations", and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Young & Sanett

CITY OF OXFORD, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS September 30, 2005

As management of the City of Oxford, Mississippi ("City"), we offer readers of the City of Oxford, Mississippi's financial statements this narrative overview and analysis of the financial activities of the City of Oxford, Mississippi, for the fiscal year ended September 30, 2005. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, the basic financial statements and the accompanying notes to those financial statements.

THE FINANCIAL STATEMENTS

The financial statements presented herein include all of the activities of the City of Oxford, Mississippi using the integrated approach as prescribed by GASB Statement No. 34.

The Government-Wide Financial Statements present the financial picture of the City from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business type activities separately. These statements include all assets of the City (including infrastructure) as well as all liabilities (including long-term debt). Additionally, certain elimination's have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

The Fund Financial Statements include statements for each of the two categories of activities: governmental and business-type (enterprise). The governmental activities are prepared using the current financial resources measurement focus and modified accrual basis of accounting. The business-type activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements are provided to explain the differences created by the integrated approach.

REPORTING THE CITY AS A WHOLE

The Statement of Net Assets and the Statement of Activities

The Statement of Net Assets and the Statement of Activities report information about the City as a whole and about its activities. These statements include all assets and liabilities of the City using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and changes in them. Net assets are the difference between assets and liabilities, which is one way to measure the City's financial health or financial position. Over time, increases and decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the City's property tax base and the condition of the City's infrastructure.

In the Statement of Net Assets and the Statement of Activities, we separate the City's Activities as follows:

Governmental Activities - Most of the City's basic services are reported in this category, including General Government, Public Safety, Public Works, Tourism, and Culture and Recreation. Property taxes, user fees, interest income, franchise fees, and state and federal grants finance these activities.

Business Type Activities - The City charges a fee to customers to cover all or most of the cost of certain services it provides. The City's Water and Sewer and Electric activities are reported in this category.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The City reports assets of \$89,914,486, of which \$70,393,668 are capital assets. The assets exceed the City's liabilities of \$32,612,399, \$24,964,926 of which are long term, at the close of the most recent fiscal year by \$52,302,087. Of this amount, \$9,525,028 are unrestricted net assets. The City's net assets are comprised of \$29,490,810 from Governmental Activities and \$27,812,277 from Business-Type Activities.

By far the largest portion of the City's net assets reflects its investment in capital assets (e.g., land, cuildings, machinery and equipment, vehicles, City infrastructure, etc.), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Although the City's investment in its capital assets is reported net of related debt, please note that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (less than 1 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

GOVERNMENTAL ACTIVITIES

Here we show the City of Oxford, Mississippi's changes in net assets. In the chart below, General Government includes the following departments: Legislative (Board of Alderpersons) Judicial, Executive, Financial, Building, and other General Administration. Public Safety encompasses the Police, Fire, Engineering, and Inspection departments. Public Works is made up of the Street and Sanitation departments. Culture and Recreation contain the City's parks as well as Senior Citizens Center activities.

BUSINESS-TYPE ACTIVITIES

The Business-Type Activities of the City are those that the City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer and electric departments are reported here.

Business-Type Activities

Fiscal Year ended September 30, Fiscal Year ended September 30, Increase between Fiscal Years	Operating Revenues \$ 21,215,091
Fiscal Year ended September 30, Fiscal Year ended September 30, Increase between Fiscal Years	Operating Expenses \$ 17,454,058

DEBT ADMINISTRATION

Debt, considered a liability of governmental activities, increased in fiscal year 2005 by \$1,570,637.

The Governmental Activity debt summary for fiscal year is presented below.

	2005
Debt Payable beginning of fiscal year Add: New Bond Issues	\$ 25,763,271 3,300,000
Less: Debt Retired	29,063,271 1,729,363
Debt Payable at end	\$ 27,333,908

CAPITAL ASSETS

The capital assets of the City are those assets, which are used in the performance of the City functions including infrastructure assets. At September 30, 2004, net capital assets of the governmental activities totaled \$34,733,455 and the net capital assets of the business-type activities totaled \$27,657,983. At September 30, 2005, net capital assets of the governmental activities totaled \$39,102,867 and the net capital assets of the business-type activities totaled \$31,287,996. Depreciation on capital assets is recognized in the Government-Wide financial statements.

The City has elected to treat infrastructure assets the same way as other capital assets. That is, infrastructure assets have been capitalized at their historical costs and subsequently depreciated over their estimated useful life.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

A. Governmental Funds - Governmental funds are used to account for most of the City's basic services, reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are found later in this report.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, Special Assessment Funds and the Fiduciary Funds, all of which are considered to be significant funds. See the separate statements on these funds.

- B. Proprietary Funds Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses proprietary funds to account for its Water and Sewer and Electric departments. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer and Electric departments, which are considered to be major funds of the City. The basic proprietary fund financial statements can be found later in this report.
- C. Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds

are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's other programs. The basis of accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found later in this report.

3. NOTES TO THE FINANCIAL STATEMENTS

The notes to the financial statements provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found later in this report.

4. REQUIRED SUPPLEMENTAL INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplemental information includes a presentation of performance results against the adopted budget. The City adopts an annual budget in accordance with Mississippi State Law. Both the original and final budgets are presented and compared to the budgetary basic financial statements. Cash basis is required under Mississippi State Law, therefore adjustments from the cash basis to the GAAP basis of reporting are also presented.

5. OTHER INFORMATION

Combining statements for each fund and comparisons to the prior year for each classification of funds (e.g., special revenue, proprietary, etc.) are not required, but are presented as other information to enhance the level of detail.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Oxford, Mississippi's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Clerk's office, 107 Courthouse Square, Oxford, Mississippi 38655.

CITY OF OXFORD, MISSISSIPPI RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES For the Year Ended September 30, 2005

Net Change in Fund Balances-Governmental Funds

\$ (1,274,165)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Capital outlays are reported as expenditures in Governmental Funds but are not reported as expenses in the Statement of Activities. Instead, costs associated with Capital Assets are capitalized in the Statement of Net Assets. 5,178,730

Depreciation is not an expenditure in Governmental Funds but is an expense of allocating the cost of Capital Assets over their estimated useful lives in the Statement of Activities.

(809,318)

Issuance of Bonds

(1,500,000)

Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

1,182,781

Under the Modified Accrual Basis of Accounting in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. Thus, the Change in Net Assets differs from the Change in Fund Balances by a combination of the following items:

Accrued Interest on Bonds

(16,370)

Change in Net Assets-Government-Wide

CITY OF OXFORD, MISSISSIPPI NOTES TO FINANCIAL STATEMENTS September 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City operates under a Mayor-Alderperson form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, education, public improvements, planning and zoning, and general administrative services.

A. Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation this ability is financial interdependency. manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. No component units are reported in the City's financial statements.

GASB Statement No. 34 establishes new requirements and a new reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions. The basic tenets of the Standards are as follows:

Management's Discussion and Analysis - GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to the analysis the private sector provides in their annual reports.

Government-Wide Financial Statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable), but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

Schedule of Net Assets - The Schedule of Net Assets is designed to display the financial position of the primary government (government and business-type activities) and its directly presented component units. Governments will report all capital assets, including infrastructure, in the government-wide Schedule of Net Assets and will report depreciation expense-the cost of "using up" capital assets-in the Schedule of Activities. The net assets of a government will be broken down into three categories-(1)invested in capital, net of related debt; (2)restricted; and (3) unrestricted.

Schedule of Activities - The new government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Budgetary Comparison Schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government's original budget to the current comparison of final budget and actual results.

B. Government-wide and fund financial statements

The basic financial statements include both government-wide (based on the City as a whole) and fund types (the total of all funds of a particular type). In the new reporting model, the focus is on either the City as a whole, or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the government-wide Statement of Net Assets, both the governmental and businesstype activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. The City generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are The City may defer the use of restricted assets available. based on a review of the specific transaction. government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales, and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and

contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. City does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The governmental funds major fund statements in the fund financial statements are presented on a current financial resource and modified accrual basis of accounting. These funds are normally budgeted in Since the governmental fund statements are this manner. presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile funds based on financial statements with the governmental column of the government-wide presentation. The City's fiduciary funds are presented in the fund financial statements, by type (private purpose or agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds incorporated into the government-wide statements. The focus of the revised model is on the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category) and the component units. Each presentation provides valuable information that can analyzed and compared (between years and between governments) to enhance the usefulness of the information. In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts, recording cash, and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities, or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into six generic fund types and three broad fund categories as follows:

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the City. This fund is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service.

Capital Projects Funds - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Trust Funds).

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. The fiduciary fund category includes trust funds, investment trust funds, private-purpose trust funds, and agency funds. The funds should be used to report resources held in a fiduciary capacity for individuals, private organizations, or other governments. These funds are distinguished from agency funds generally by the existence of a trust agreement that affects the degree of management involvement and the length of time that resources are held.

As part of the new reporting model, the emphasis for the fund financial statements is on major funds within the governmental and propriety fund types. The general fund is always to be reported as a major fund. Other major funds are determined annually based on the following criteria:

- 1) Total assets, liabilities, revenues, or expenditures (expenses) of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and,
- 2) Total assets, liabilities, revenues or expenditures (expenses) of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

PROPRIETARY FUNDS

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs and expenses of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities. They apply Financial Accounting Standards Board (FASB) pronouncements Accounting Principles Board (APB) opinions issued or before November 30, 1989, unless those pronouncements conflict with or contradict Governmental Accounting Standards Board (GASB) pronouncements, in which case, GASB prevails. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal on-Operating expenses for enterprise funds going operations. include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Fixed Assets and Long-Term Liabilities

Capital outlays are recorded as expenditures of the General, Special Revenue, and Capital Projects Funds, and as assets in the government-wide financial statements, to the extent the City's capitalization threshold is met. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively to 1980. Depreciation is recorded on general fixed assets and depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis. All fixed assets are valued at historical cost or estimated historical cost if actual cost Donated fixed assets are valued at their was not available. estimated fair market value on the date donated. Of the \$17,124,670 in retroactive infrastructure capitalized at September 30, 2003, the entire amount was estimated using current replacement cost for a similar asset and deflating this cost through the use of price indices to the acquisition The City does not capitalize historical treasures or works of art. The City maintains many items and buildings of historical significance. The City does not require that the proceeds from the sale of historical treasures or works of art be used to acquire other items for the collection.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenditures that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

In the government-wide financial statements, debt principal payments of both government and business-type activities are reported as decreases in the balance of the liability on the Statement of Net Assets. In the fund financial statements; however, debt principal payments of governmental funds are recognized as expenditures when paid. The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. All governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net of current assets) is considered a measure

of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Noncurrent portions of long-term receivables due to governmental funds are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate, however, that they should not be considered "available spendable resources," since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables is deferred until they become current receivables. Noncurrent portions of long-term loans receivable are offset by fund balance reserve accounts.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

All proprietary funds are accounted for on a cost of service or "capital maintenance" measurement focus. This means that all assets and liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight line method. The estimated useful lives are as follows:

Buildings 3	3	1/3-60	years
Other Furniture and equipment		3-10	years
Mobile equipment		3-10	years
Improvements other than buildings		8	years
Utility systems		10-50	years
Streets and other infrastructure		80	years

D. Basis of Accounting

Basis of Accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Taxpayer-assessed income, gross receipts, and sales tax are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenues at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest revenue, charges for services and federal programs on which the revenue is recognized when the expenditure has been incurred. Fines and permits are not susceptible to accrual because generally they are not recognized until received in cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except principal and interest on general long-term debt which is recognized when due.

All enterprise funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

E. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to September 1, the City Clerk submits to the Mayor and Board of Aldermen a proposed operating budget for the fiscal year commencing the following October 1.
- 2. Public hearings are conducted at the City Hall to obtain taxpayer comments.
- 3. The budget, as submitted, is reviewed by the Mayor and Board of Aldermen and necessary revisions are made to the budget. Then the budget is approved prior to September 15.
- 4. The budget is formally revised during July of each year or anytime a deficit is indicated.
- 5. Budgetary comparisons are employed by management as a management control device during the year. The budget and actual comparisons are formally presented to the Mayor and Board of Aldermen throughout the year.
- 6. The budgets adopted are on a modified cash (Non GAAP) basis. Revenues are recognized when receipted (cash basis) from October 1 through September 30. Expenditures are recognized when legally budgeted and disbursed throughout the fiscal year or within 30 days thereafter. However, expenditures for uncompleted improvements in progress of construction may be charged to the budget at any time.

All annual appropriations lapse at fiscal year end.

F. Encumbrance System

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

G. Cash and Investments

The City deposits funds in financial institutions selected by the Board of Aldermen in accordance with state statutes.

Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below.

Cash

All deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Insurance Corporation (FSLIC), or any successors to such insurance corporations, must be collateralized in an amount equal to 105% of the uninsured amount.

<u>Investments</u>

The City is allowed, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county or municipality of this state, when such county or municipal bonds have been properly approved; or interest-bearing time certificates of deposit or interest-bearing accounts with any financial institution approved for the deposit of state funds.

Investments are stated at cost of which \$1,745,403 are restricted for debt service reserves.

For the purpose of the statement of cash flows, the City considers all cash accounts (including certificates of deposit) to be cash.

H. Advances To/From Other Funds

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payments are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "Advances to other funds" or "Advances from other funds." Amounts due from and to other funds will not offset because the Electric Department reports on a different fiscal year.

I. Prepaid Expenses

Payments made for services that will benefit periods beyond September 30, 2005, are recorded as prepaid expenses in the Enterprise Fund.

J. Inventory

Inventories of the Enterprise Fund are valued at average cost.

K. Compensated Absences

Employees of the City accumulate annual and sick leave as designated in the personnel policies adopted by the City. The City is responsible for up to thirty days of accumulated annual leave for each employee. The City does not provide for the payment of accumulated sick leave. Vested or accumulated annual leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that incurred the debt. Amounts of vested or accumulated annual leave that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group. No expenditure is reported for these amounts. Vested or accumulated annual leave of the Enterprise Fund is recorded as an expense and liability of those funds as the benefits accrue to employees. Unused personal leave in excess of thirty days and unused sick leave may be counted as creditable service for the purpose of the retirement system.

L. Fund Equity

Government-Wide Statements

In accordance with GASB Statement No. 34, equity is classified as net assets and displayed in three components:

1. Invested in capital assets, net of related debt-Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- 2. Restricted net assets-Consists of net assets with constraints placed on the use either by:
- (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or
- (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted net assets-All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements. Following are the classifications of reserves used by the City:

Reserved-Restricted for a particular future use.

Reserved for debt service-An account that represents the fund balance for the debt service resources which are legally restricted for the payment of General Long-Term Debt principal and interest amounts maturing in future years.

Reserved for unemployment benefits-An account that represents the fund balance of the unemployment compensation revolving fund which is legally restricted for the payment of unemployment benefits.

Reserved for cemetery maintenance-An account that represents the fund balance of the cemetery maintenance fund which is legally restricted for the payment of cemetery maintenance.

Reserved for tourism-An account that represents the fund balance of the 2% tourism tax fund which is legally restricted for the payment of tourism promotion for the City.

Reserved for capital projects-An account that represents the fund balance that is legally restricted for the payment of capital projects.

Reserved for fire protection-An account that represents a fund balance that is restricted for fire protection.

Reserved for band shelter-An account that represents a fund balance that is restricted for a band shelter.

Reserved for other-Numerous funds that are restricted for special uses.

M. Comparative Data

Comparative total data for the prior year have been presented in the accompanying combining financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative data have not been presented in all statements because of their inclusion would make certain statements unduly complex and difficult to understand.

N. Concentration of Credit Risk

All accounts receivable of the City are deemed collectible. However, financial instruments which potentially subject the Enterprise Fund to concentrations of credit risk consist of billed accounts receivable and unbilled costs. accounts receivable and unbilled amounts due on services result primarily from customer services provided for water sales, sewer charges and garbage collection. Customer are disconnected and their consumer services deposit surrendered once two months of non-payment occurs to limit the Enterprise Fund's credit risk to а minimal Historically, neither the City nor the Enterprise Fund has incurred any significant credit related losses.

NOTE 2 - CASH, OTHER DEPOSITS, AND INVESTMENTS

Cash and Other Deposits

The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

The carrying value of the City's deposits with financial institutions was \$14,756,192, and the bank balance was \$14,044,326.

Investments

Investments made by the City that are included on the balance sheet are summarized below. The investments that are represented by specific identifiable investment securities are classified as to credit risk by the categories described below:

Category 1 - Insured or registered, or securities held by the City (Enterprise Fund or Component Unit) or its agent in the City's (Enterprise Fund or Component Unit's) name.

Category 2 - Uninsured and unregistered, with securities held by the broker or dealer's trust department or agent in the City's (Enterprise Fund or Component Unit's) name.

Category 3 - Uninsured and unregistered, with securities held by the broker or dealer, or by its trust department or agent but not in the City's (Enterprise Fund or Component Unit's) name.

Depreciation expense of \$1,160,191 was charged to business activities.

NOTE 4 - GENERAL PROPERTY TAXES

General property taxes, other than motor vehicles, attach as an enforceable lien on property as of January 1, for the previous calendar year and are due by February 1, based on the levy set by the Board of Aldermen the previous September or October. Taxes on motor vehicles attach as an enforceable lien at various dates throughout the year based on when the property was acquired by the owner and are due in the month of the acquisition and annually thereafter based on the annual levy in effect at that time. The City billed and collected its own property taxes, except for taxes on motor vehicles, and also collected taxes for the Separate School District. Taxes on motor vehicles and mobile homes were billed and collected by the County and remitted to the City monthly.

The assessed value of the taxable property within the City for which current payment was due during the fiscal year ended September 30, 2005, is as follows:

Real Property		\$ 205,770,639
Personal Property		21,339,048
Public Utilities		4,423,893
Motor Vehicles and	Mobile	Homes 134,705,692
		\$ 366,239,272

The City levied a tax millage of 74.93 mills on the assessed values. The millage was allocated as follows:

Library	1.42
General Fund (General Account)	15.56
City Bond and Interest Fund	8.29
Parks and Recreation Fund	2.00
School Bond and Interest Fund	8.37
School Maintenance Fund	38.35
Vo-Tec Center	94
	74.93

Collections for the School Maintenance Fund and the Minimum Education Program Funds are remitted by the City to the Separate School District.

NOTE 5 - LONG-TERM DEBT

BOND INDEBTEDNESS

The following is a summary of bond transactions of the City for the year ended September 30, 2005:

	OBLIGATION	<u>REVENUE</u>	TOTAL
Bonds Payable at			
October 1, 2004	\$14,570,000	\$ 8,700,000	\$ 23,270,000
Bonds Issued	1,500,000	1,800,000	3,300,000
Bonds Retired	<u>845,000</u>	<u>540,000</u>	<u>1,385,000</u>
Bonds Payable at			
September 30, 2005	\$ <u>15,225,000</u>	\$ <u>9,960,000</u>	\$ <u>25,185,000</u>

General obligation bonds include General City Bonds, Special Street Improvements Bonds, and School Bonds.

Retirement and payment of the Series 1993 revenue bonds issued is secured by an irrevocable pledge and dedication of a portion of the proceeds, in the amount of \$200,000 annually, of a special sales tax of 2% on the gross receipts of certain establishments. These bonds constitute a borrowing solely upon the credit of such sales tax revenues and does not constitute an indebtedness or pledge of the general credit of the municipality. Management anticipates that collections of the special sales tax levy will produce revenues sufficient to retire the issue in its entirety.

The General Obligation Bonds, Series 1995, 2004, and 2005 were issued for the purpose of street improvement.

The combined Water and Sewer revenue bonds were issued in fiscal 1996, 2003, and 2004 for the purpose of installing new systems in certain parts of the City.

The Electric System Revenue Bonds, Series 1999, were issued for the purpose of constructing a new warehouse, offices and other improvements for the Electric Department and are callable after November 1, 2007. These bonds do not constitute indebtedness of the City of Oxford within the meaning of any constitutional, statutory or charter limitation of indebtedness. The taxing power of the City is not pledged to the payment thereof, either as to principal or interest.

The General Obligation Bonds, Series 2001, 2002 and 2004, were issued for the purpose of street and bridge improvements.

The debt service requirements of the City of Oxford for the total bonded debt for the next five years are as follows:

FISCAL YEAR	<u>MATUR</u>	<u>MATURITIES</u>			
<u>ENDED</u>	<u>PRINCIPAL</u>		INTEREST		
2006	\$ 1,630,000	\$	1,175,030		
2007	1,690,000		1,040,008		
2008	1,795,000		957,242

2010	1,770,000		778 , 897		
2011-2015	7,505,000		2,891,028		
2016-2020	7,190,000		1,434,015		
2021-2025	<u>1,910,000</u>	_	147,922		
TOTALS	\$ <u>25,185,000</u>	\$_	9,283,347		

NOTES AND GRANTS PAYABLE

A summary of long-term notes payable transactions of the City for the year ended September 30, 2005, is a follows:

Dalamas		TOTALS
Balance at	ተ	2 402 271
October 1, 2004 New Notes Issued	Ф	2,493,271
Notes Retired		244 262
Balance at		344,363
	ተ ኮ	2 140 000
Sept. 30, 2005	Ф	2,148,908

The Electric Department negotiated a \$1,000,000 loan from the Tennessee Valley Authority. Interest at a variable rate of approximately 2.4% is payable monthly. The principal balance of \$710,000 matures in 2005.

Certain Urban Renewal Notes, having balances of approximately \$1,696,990 at September 30, 2005, were issued in 1995 for the purpose of renovating a low-rent housing project. The Oxford Housing Authority is managing the property and retires the notes from rental proceeds; consequently, these notes are not reflected as liabilities in the accompanying financial statement nor in the maturities reflected herein.

The debt service requirements of the City of Oxford for Notes Payable, exclusive of the Urban Renewal Notes, for the next five years are approximately as follows:

FISCAL YEAR	<u>MATUR I</u>	<u>MATURITIES</u>				
ENDED	PRINCIPAL	INTEREST				
2006	\$ 738,981	\$ 82,516				
2007	196,679	52 , 818				
2008	204,693	44,804				
2009	213,032	36,465				
2010	221,712	27 , 785				
2011-2015	<u> 573,810</u>	<u>29,136</u>				
TOTALS	\$ 2,148,907	\$ 273,524				

NOTE 6 - TVA HOME INSULATION PROGRAM - ELECTRIC FUND

Other assets of the Electric Fund include \$ 22,018 receivable from customers of a home insulation program sponsored by TVA. This program is an agreement for installation of TVA approved insulation, to be paid for by the Electric Fund and repaid by the customer by monthly additions to their electric bill. TVA makes advances to the Electric Fund as disbursements are made under the program. Repayments are made to TVA as amounts are collected from customers.

NOTE 7 - CONTINGENT LIABILITIES

The City receives financial assistance from certain federal, state and local governmental agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreement and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect the overall financial position of the City at September 30, 2005.

Pursuant to a decision on October 7, 2002, by the judge of the Circuit Court of Lafayette County, Mississippi, the City has been assessed the sum of \$1,759,810 in damages related to an action by an employee of three co-defendant contractors. A post-trial motion has been filed on the City's behalf asking the court to reconsider several aspects of the ruling; which motion is presently pending before the court.

Claims have been asserted by various sub-contractors, related to unpaid construction costs, totaling approximately \$125,000.

In the opinion of the City's management, liability in excess of insurance coverage on the above will not have a material adverse effect on the City's financial statements.

NOTE 8 - COMMITMENTS

Commitments for operating leases of equipment at September 30, 2005, are as follows:

FISCAL YEAR ENDING	
September 30, 2006	\$ 65,043
September 30, 2007	46,376
	\$ 111,419

Lease payments are recorded as expenditures of the general fund.

NOTE 9 - DEFINED BENEFIT PENSION PLAN

Plan Description. The City of Oxford contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi

Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary and the City of Oxford is required to contribute at an actuarially determined rate. The current rate is 9.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The City of Oxford's contributions to PERS for the years ending 2005, 2004, and 2003 were \$1,101,881, \$811,133 and \$756,086, respectively, equal to the required contributions for each year.

NOTE 10 - OXFORD-LAFAYETTE MEDICAL CENTER

The medical center is jointly owned by the City of Oxford and Lafayette County. Operations of the medical center were transferred to Baptist Memorial Hospital in fiscal year 1989, pursuant to a 30 year lease. The City and County have agreed to extend the lease up to 45 years pending extensive new construction by the Hospital.

NOTE 11 - FLEXIBLE BENEFIT (CAFETERIA) PLAN

Effective May 1, 1993, the City adopted such a Plan, under Section 125 of the Internal Revenue Code, for the benefit of all full-time employees. The Plan permits participants to pay the costs of the following benefits on the salary reduction basis:

Major Medical
Cancer
Intensive Care
Medical Supplement
Accident

Disability Dental Term Life Sickness Income

During fiscal 2005, no costs accrued to the employer under the Plan.

NOTE 12 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 13 - ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 14 - INTERFUND TRANSACTIONS

CITY OF OXFORD, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION Year ended September 30, 2005

BUDGETARY COMPARISON SCHEDULE

- 1) Basis of Presentation. The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis and variances between the final budget and the actual data.
- 2) The budget is adopted by the Board of Alderman. Amendments can be made of the approval of the Board. A budgetary comparison is presented for the major governmental funds consistent with accounting principles generally accepted in the United States of America.
- 3) Section 21-35-15, Mississippi Code (Ann. 1972) explains that expenditures shall be kept within the budget "except for capital outlay." Because Capital Projects funds do not have legally binding budgets, two of the major governmental funds budgetary comparisons are not presented.

COMPLIANCE AND INTERNAL CONTROL REPORTS

606 S. 16TH STREET / P.O. DRAWER 280 / OXFORD, MS 38655-0280 / PHONE (662) 234-1251 / FAX (662) 236-3804

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Board of Aldermen City of Oxford Oxford, Mississippi

We have audited the financial statements of the City of Oxford as of and for the year ended September 30, 2005, and have issued our report dated February 16, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the City of Oxford's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over financial reporting and its operation that we consider to be material weaknesses.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the City of Oxford's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under <u>Government Auditing Standards</u>.

This report is intended solely for the information of management, the Mayor and Board of Aldermen, and federal awarding agencies and pass-through entities and should not be used by anyone other than these specified parties.

February 16, 2006

606 S. 16TH STREET / P.O. DRAWER 280 / OXFORD, MS 38655-0280 / PHONE (662) 234-1251 / FAX (662) 236-3804

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and Board of Aldermen City of Oxford Oxford, Mississippi

Compliance

We have audited the compliance of the City of Oxford with the types of compliance requirements described in the <u>U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement</u> that are applicable to each of its major federal programs for the year ended September 30, 2005. The City of Oxford's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government <u>Auditing Standards</u>, issued by the Comptroller General of the United States; and OMB Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City of Oxford complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2005.

Internal Control Over Compliance

The management of the City of Oxford is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the mayor, board of aldermen; management; entities with accreditation overview; and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Honorable Mayor and Board of Aldermen City of Oxford Oxford, Mississippi

We have audited the basic financial statements of the City of Oxford, Mississippi, as of and for the year ended September 30, 2005, and have issued our report dated February 16, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the basic financial statements disclosed no material instances on noncompliance with state laws and regulations.

This report is intended solely for the information and use of management, others within the organization, the Board of Aldermen, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties. However, this report is a matter of public record and its distribution is not limited.
