Public Information

Search for Exact Phrase

From this screen a search can be performed by two ways. Any word, number, date, contact, name, etc. can be typed into the search box and select the applicable module you wish to search within or by an exact phrase.

The results will display all instances for the search. The match can be found anywhere on the project...work class, description, project, address, custom field, contact name, etc. Select Filtered Results to display just permits, plans, code cases or inspections.

Selecting the dropdown and choosing a specific type of project (i.e., permit, plan, inspection, license, etc.) will allow searches specific to the type.
